

LAKE TAHOE LICENSE PLATE PROGRAM GRANT APPLICATION

A. Program/Project Title: _____

B. Program/Project Location (If Applicable) _____

(Please include a Map)

C. Entity Requesting Grant Funds _____

D. Total Estimated Program/Project Cost: _____

Grant Amount Requested: _____

E. Contact Information:

Address: _____

Phone: _____

E-mail Address: _____

F. Person's Name and Title Authorized to Represent the Project/Program and Agency/Local Government.

(Please Print clearly or Type)

Signature

Date

Please attach a detailed program/project description explaining the environmental benefits and how the program or project will help preserve and restore the Lake Tahoe Basin. In addition, please provide all applicable information listed in Sections 4 and 6 of the program procedures. This attachment may not exceed 15 single sided pages. Eight full copies of this application package must be submitted.

Lake Tahoe License Plate Program Procedures

1. Authority

Chapter 72 of the Sixty-ninth Legislative Session amended NRS 482 and NRS 321 to establish the Lake Tahoe license plate program. This program is funded by fees collected from individuals who purchase a Lake Tahoe license plate. The fee is twenty-five dollars for the initial issuance of the plate and twenty dollars for each renewal. The following language was added to Chapter 321 of NRS:

- 1. The account for license plates for the support of the preservation and restoration of the natural environment of the Lake Tahoe Basin is hereby created in the state general fund. The administrator of the division of state lands of the state department of conservation and natural resources shall administer the account.*
- 2. The money in the account does not lapse to the state general fund at the end of a fiscal year. The interest and income earned on the money in the account, after deducting any applicable charges, must be credited to the account.*
- 3. The money in the account must be used only for the support of programs for the preservation and restoration of the natural environment of the Lake Tahoe Basin and must not be used to replace or supplant funding available from other sources. The administrator may provide grants from the account to other public agencies to carry out the provisions of this section.*

2. Definitions

Fund: Fund means the account for license plates for the support of the preservation and restoration of the natural environment of the Lake Tahoe Basin.

Division: Division means the Division of State Lands of the Department of Conservation and Natural Resources.

Committee: Committee means the technical advisory committee established by the Division to perform technical review, and prioritization, of grant applications.

Program: Program refers to a program, project or activity intended for the preservation and restoration of the natural environment of the Lake Tahoe Basin.

3. Grants of money

The state land registrar will award grants of money, from the fund, for the preservation and restoration of the natural environment of the Lake Tahoe Basin. Grants may be used to fund an entire program or a portion thereof. The state land registrar makes all final decisions regarding grant funding.

4. Solicitations of applications

The state land registrar will periodically solicit applications for grants of money from the fund.

An application for such a grant must be submitted to the Division and must include, without limitation:

- a. A completed application on a form provided by the Division;
- b. A detailed description of the program or project;
- c. The amount of money requested for the program or project;
- d. The total projected cost of the program or project;
- e. If applicable, sources of matching funds and a statement regarding if matching funds have been secured;
- f. If applicable, proof of any title to land, lease or easement that is required for carrying out the program;
- g. If applicable, a map of the location of the project;
- h. If applicable, preliminary or conceptual design drawings;
- i. If applicable, a plan for the operation and maintenance of the project for a period of at least 20 years, including, without limitation, the identity of the person who will operate the project and provide the maintenance;
- j. An itemized list of the costs of the program or project in accordance with the descriptions of work;
- k. An estimated time schedule for completion of the program or project; and
- l. A detailed description of how the project or program will contribute to the preservation and restoration of the natural environment of the Lake Tahoe Basin.

5. Evaluation and prioritization.

- a. Each program or project shall be evaluated based on its estimated costs and environmental benefits. In its review, the division shall use the advice of the technical advisory committee.
- b. If the amount of grant requests exceeds the amount of money in the fund, a preliminary list ranking the projects shall be compiled. The ranking shall be based on the estimated costs and environmental benefits and shall be compiled in consultation with the committee.
- c. The state land registrar shall make the final selection based on the preliminary ranking list compiled by the committee.

6. Evaluation criteria for grant awards.

The division shall evaluate each program or project pursuant to the following criteria:

- a. The environmental benefit of the program toward preserving and restoring the natural environment of the Lake Tahoe Basin, including whether the program:
 - (i) Will contribute to the achievement of environmental thresholds as identified in the Tahoe Regional Planning Agency (TRPA) regional plan; and/or.
 - (ii) Is listed as a program or project in the “Environmental Improvement Program” of TRPA.
- b. The ability to obtain all required local, state and federal permits.
- c. The long-term viability of the program or project.
- d. The ability of the applicant to maintain the project.
- e. The cost effectiveness of the program or project.
- f. The ability of the applicant to carry out the program in a timely manner;
- g. If the applicant is applying to fund a program or project that is a portion of a larger project, the ability of the portion funded with grant money to achieve environmental benefits independently of the other components of the larger project.
- h. The amount of cooperation and support for the program or project from persons other than the applicant, including, without limitation:
 - (i) Federal, state and local governmental agencies;
 - (ii) Private landowners; and/or
 - (iii) Non-profit organizations
- i. The adequacy of the maintenance plan for the project.
- j. The amount of matching contribution provided by the applicant.

7. Requirements of the Grant Recipient

Upon the award of a grant, the recipient and the state land registrar shall enter into an agreement, which shall include, but not be limited, to the following:

- a. A schedule for disbursement of the grant funds that is tied to the work schedule for the completion of the program or project;
- b. An agreement to operate and provide maintenance for the project for at least 20 years after the project is completed;
- c. If the project involves improvements located on private property, a conservation easement shall be granted to the State of Nevada;
- d. An agreement that commencement of the approved program or project will begin within six months of awarding the grant;
- e. Acknowledgment that the grant recipient shall be responsible for obtaining all required local, state and federal grants or authorizations necessary for carrying out the project.

8. Match Requirements

- a. Nevada State agencies shall not be required to provide matching funds to be eligible for grants under this program.
- b. All other grant applicants shall be required to provide at least 25 percent in matching funds to be eligible for grants under this program.

9. Acceptable and Unacceptable Uses of Grant

Acceptable use of grant money includes:

- a. All expenses related directly to the program or project, including, without limitation, expenses related to design and construction; and
- b. The administrative costs of the program or project, not to exceed three percent (3%) of the grant.
- c. Environmental education/information programs. The maximum amount of funds available each year for environmental education programs shall not exceed \$25,000 or 10 percent of the available grant funds available January 15th of each year, whichever is more limiting.

The money in the account must be used only for the support of projects for the preservation and restoration of the natural environment of the Lake Tahoe Basin and must not be used to replace or supplant funding available for other sources. In addition, the recipient of the grant may not use the money from the grant to pay for:

- a. Any planning activities which are not directly related to the design and engineering of the project;
- b. The purchase of new equipment;
- c. The paving of curbs or gutters, unless the paving of curbs or gutters is recommended by the committee to remedy erosion;
- d. The acquisition of land, unless such an acquisition is deemed by the state land registrar to be an integral component of the program or project;
- e. Any work required by a public agency as mitigation or as a condition of the approval of any other project; and
- f. Any component of the program or project that is deemed by the state land registrar to not benefit the public.
